Laser scar treatment is a great option to reduce the appearance of unwanted scars. This treatment is fast, easy and provides remarkable results.

### How does it work?

Pulses of laser light are gently delivered to the treatment area to break down the scar tissue and help generate healthy new skin.

### What results can I expect?

You can expect to see an overall improvement in the tone and texture of the scar\*. A series of treatments may be required for desired results.

Treatment plans can be adjusted to fit everyone's lifestyle – speak to your provider regarding desired downtime, comfort, and results.

**Schedule your treatment session today.**

\*Individual results may vary and are not guaranteed.
