

Your Vaginal Health

Just like every other part of the body, the vagina changes with age, but additional decline in vaginal health may be caused by two major events in a women's life:

- Vaginal Childbirth – stretching of the vaginal canal and surrounding tissues
- Menopause and other events such as a hysterectomy, chemotherapy, and breast-feeding

diVa's Hybrid Fractional Laser technology allows your clinician to customize your treatments to address your intimate challenges and produce desired results.

Frequently Asked Questions

WHO IS AN IDEAL CANDIDATE FOR diVa?

Women who are experiencing challenges of their changing bodies and have concerns of their vaginal health.

HOW LONG DOES A PROCEDURE TAKE?

A fast 3-5 minutes is typical treatment time.

HOW MANY TREATMENTS ARE RECOMMENDED?

Your clinician will recommend a series of 3 treatments every 4-6 weeks apart, followed by annual checkups for maintenance.

WHAT DO YOU EXPERIENCE DURING THE TREATMENT?

diVa laser therapy is fast with minimal discomfort. A topical anesthetic may be applied for added comfort. You may experience slight pressure against the vaginal wall during the treatment, and some women experience increased sensitivity near the vaginal opening.

WHAT DO YOU EXPERIENCE IN THE NEXT 48 HOURS AFTER THE TREATMENT?

You may return to your daily routine with minimal to no discharge, spotting, or discomfort; however, you should avoid sexual intercourse or vaginal insertion for up to 48 hours. In some progressive treatments, your clinician may suggest a longer time frame.

Because Women's Health Matters

diVa® is a quick & easy, comfortable, minimal to no downtime solution to a woman's feminine challenges

Every woman is unique and so are her gynecological health needs. diVa technology allows your clinician a customizable approach to address your feminine concerns and produce desired results.

REVITALIZATION PROCESS

Only diVa utilizes innovative Hybrid Fractional Laser (HFL) technology. diVa delivers two laser beams at once to the wall of the vaginal canal for a synergistic effect. The first laser deeply resurfaces the tissue layers, replacing it with improved quality tissue. The second laser heats the layers where collagen exists.

IN A RECENT diVa CLINICAL STUDY* WOMEN REPORTED:

- Minimal to little discomfort
- No adverse events
- 92% reported expectations were met

WOMEN, WHO ARE JUST LIKE YOU SHARE THEIR PERSONAL STORIES

MAUREEN

After my diagnosis, I was told my body was going to be in menopause and I was only 43 and newly married. I heard about diVa and my doctor said he would customize the treatments, especially for my health challenges. I had a treatment and my tissue health is better every single day. I am hopeful and excited in my new journey in enjoying a very loving relationship with my husband.

SARAH

I am newly single and I was not quite ready to get back into the dating scene – I had concerns. With age, I was beginning to question my confidence. A friend introduced me to diVa. I had the 3 recommended treatments and I can't tell you how simple and easy each treatment was and how wonderful my results are – I am a modern woman and I have choices that my mom or grandma didn't have. I took control of my gynecologic health. I am confident and I am not looking back.

KATY

My friends want to know my secret. How am I so active? I share my secret, because diVa is for everyone. Since my treatment, I'm a forever fan. What I like about it is, it wasn't surgery. I was back on the road the next day, running, boxing... chasing after my children. diVa put me in charge!

SUSAN

I'm 61 and for me it's all about being healthy, physically and emotionally. There is one part of my body that no matter what I did, I wasn't happy with it. I faced intimate health challenges in my relationship. After having my second daughter at 40, I didn't bounce back – then menopause came and I was sad about it for a really long time. An email from my cosmetic surgeon described what diVa could do for me. My first treatment I did not tell my husband – I wanted to see how he was going to act. He noticed and said, a laser did that? Now my confidence is through the roof, so I love being intimate. diVa has given me my sexual health back.
